Method 01: Hinge Method (Recommended)

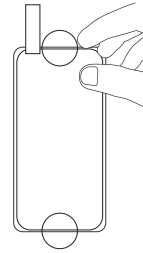

1. Wipe the screen clean with the included Alcohol Prep Pad.

2. Use the dry wipe to ensure all dust and liquid have been removed.

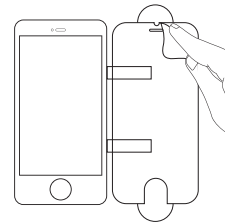

3. Dab the sticker side of the dust-absorber to eliminate any trace amounts of debris on the screen.

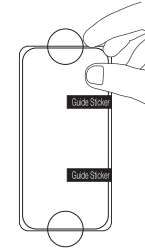

4. Place the screen protector (tab side down) over the screen so that the cut-outs perfectly align with the phone.

5. Place the guide stickers on one side to hold the screen protector in place.

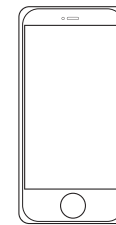

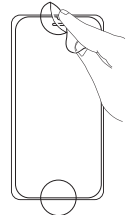

6. Flip the screen protector over and remove the sticker cover (start by grabbing the tab and pulling away).

7. Carefully place the screen back onto the phone using the guide sticker as a hinge.

8. Remove the guide stickers and peel away the top protective layer by pulling the wings away from the screen.

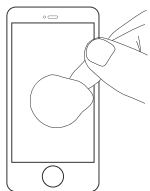

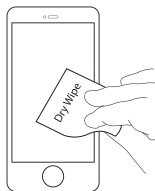

9. Ensure there are no air bubbles; your phone is now protected.

Method 02: Wing Method

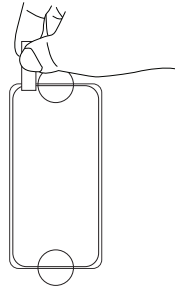

1. Wipe the screen clean with the included Alcohol Prep Pad.

2. Use the dry wipe to ensure all dust and liquid have been removed.

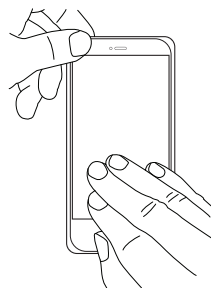

3. Dab the sticker side of the dust-absorber to eliminate any trace amounts of debris on the screen.

4. Remove the bottom protective layer by pulling away the top rectangular tab.

5. Holding the application wings align the screen protector with the front of screen.

6. Ensure all cutouts and edges are correctly aligned then press down firmly.

7. Peel away the top protective layer by pulling the wings away from the screen.

8. Ensure there are no air bubbles; your phone is now protected.
